Rector's Greeting

The University of Patras, one of the most dynamic universities in the country, as evidenced by its outstanding achievements in research, education, innovation, and culture, combined with its international recognition, remains committed to the following objectives:

- excellence in research and teaching,
- extroversion and internationalization,
- development through the exploitation of research into new innovative products.

In our times, it is necessary to constantly renew knowledge and skills and, therefore, a dynamic type of University that keeps pace with international reforms and adapts to an increasingly competitive globalized environment.

The University of Patras, with boldness and constant vigilance, respecting diversity, it is faithful to inclusion and with a genuine concern for the protection of human rights and freedom of expression, it will keep on its journey in a constantly changing world.

The Rector
Professor **Christos I. Bouras**

RECTORATE

Rector Professor **Christos Bouras**

Vice-Rector for Strategic Internationalization Professor **Dionissios Mantzavinos**

Vice-Rector for Academic Affairs and Finance Professor **Ioannis Venetis**

Vice-Rector for Planning, Digital Modernization and Infrastructure
Professor **Georgios Panagiotopoulos**

Vice-Rector for Student and Cultural Affairs Assoc. Professor **Eleni Albani**

Quality assurance

University of Patras (UPatras) is one of the most distinguished universities nationally and internationally owing to its manifold and innovative action in Natural Sciences, Engineering, Health Sciences, Humanities, Social and Economic Sciences, along with its remarkable research activity. The University was founded in 1964 with the vision of becoming widely-recognized for cultivating the spirit of international cooperation and scientific progress. In 2013, the University of Western Greece was integrated into UPatras. In 2019, the majority of the Departments of the Technological Educational Institute of Western Greece were also integrated into UPatras. To manage its premises and facilities in the cities of Patras, Messolonghi, Agrinio, the University has adopted the principles of sustainable development. Rio Campus is located in close distance from the historical center of Patras, Greece's third-largest city, where development of new technologies is vastly supported.

In 2018, UPatras was the first Institution in Greece to receive accreditation for its Internal Quality Assurance System (IQAS), in compliance with the Hellenic Authority for Higher Education (HAHE) Quality Standards as well as the Standards and Guidelines for Quality Assurance in the European Higher Education Area (ESG). After the end of the Accreditation period, in 2024 the IQAS of the University of Patras, passed the certification process by the HAHE again receiving the highest ranking (fully compliant), highlighting the commitment of the academic community to quality assurance and continuous improvement.

UPatras Internal Auditing

UPatras Internal Auditing is an independent, objective assurance and consulting activity designed to add value and improve the organization's operations.

International Relations

The International Relations Office of the University of Patras/UPatras is the “hub” for coordinating the Institution’s internationalization strategy, opening up ways for cooperation with leading universities worldwide.

UPatras recognizes the Erasmus+ Programme as the main form of internationalisation in Higher Education. It manages Erasmus+ Mobility Projects (Key Action 131/171) within and outside the European Union, signing inter-institutional agreements with Higher Education Institutions in Program Countries (“classic” mobility), but also with institutions in countries not connected to the Program (international mobility), providing opportunities for student mobility for studies/internships and staff mobility for teaching/training.

Students of all study cycles have the opportunity to study at partner institutions or undertake internships abroad (in companies, research centers, etc.), aiming at:

- improving their learning outcomes
- developing valuable intercultural, linguistic and digital skills, and
- personal development and enhancing their adaptability skill.

Staff (teaching and administrative) have the opportunity to participate in short teaching and training cycles, seeking to:

- gain experience in new teaching environments
- developing innovative pedagogical and digital skills, and
- exchanging good practices and strengthening cooperation with institutions abroad.

UPatras goes beyond European borders through Erasmus+ International Credit Mobility by signing inter-institutional agreements with partner countries such as the USA, Australia, Argentina, Chile, Uruguay, Jordan, Tunisia, Morocco, China, Japan, South Africa, and others. To date, UPatras has managed 167 incoming and outgoing participant flows in the context of Erasmus+ ICM.

UPatras manages the Erasmus+ through a top-down process, whereby the policy, terms and conditions of the Program are transferred from the European Commission to the Institution through the National Coordination Unit/IKY to the relevant Committee of the Institution and to the Departmental Coordinators. The management of mobilities is carried out in line with the European Higher Education Area in terms of applying the ECTS and the full academic recognition of mobility periods. The aim of UPatras is to enhance the mobility of students and staff through Erasmus+, both in terms of outgoing and incoming flows.

During the decade 2014-2024 in the context of Erasmus+, within and from Program countries, mobilities concerned:

1.795	outgoing students for studies
1.448	outgoing students for internships
496	outgoing staff members for teaching
195	outgoing staff members for training
1.219	incoming students

Furthermore, UPatras invests in high-level collaborations, signing Memoranda of Understanding (MoU) with internationally recognized universities. The following are indicative examples:

- Johns Hopkins University (USA)
- Center for Hellenic Studies, Harvard University (Greece)
- University of Toronto (Canada)
- Fujian University of Technology (China)
- University of Leeds (UK)
- SouthWest University of China
- University of Thuyloi (Vietnam)
- University of Shimane (Japan)
- Oswego State University of New York (USA)
- University of Alaska Southeast (USA)
- University of Arizona, (USA)
- University of Purdue (USA)
- Greek Community of Alexandria (Egypt)
- University of Johannesburg (South Africa)
- Russian – Armenian University (Armenia)
- University of Nicosia (Cyprus)
- University of Leeds (UK), etc.

<https://www.upatras.gr/international-relations/>

Confucius Institute

The Confucius Institute promotes the Chinese language and it is implemented through a trifold collaboration between the University of Patras, Beijing University of Chemical Technology, and the Chinese International Educational Foundation. The University of Patras will host the fifth such institute in the country, after Aristotle University of Thessaloniki, Athens University of Economics Business, Piraeus University, and the University of Thessaly.

Transnational Alliances

The University of Patras participates in EUNICOast, a pioneering Alliance of European Coastal Universities, established in November 2024 under the European Commission's flagship initiative "European Universities". Inspired by the dynamism of ports and the connectivity of islands, EUNICOast brings together universities and communities in a shared mission: to shape an open, multicultural, and inclusive European ecosystem of higher education, research, and innovation that promotes sustainability and collaboration, fosters community engagement, and enhances the capacity of universities to address the social and environmental challenges faced by coastal regions across Europe and beyond.

<https://eunicoast.eu/>

eunicoast.eu

Research

The University of Patras was founded with a clear international orientation, systematically implementing the European Strategy for education and research. Its international character is reinforced through participation in leading European and international programs and consortia. It systematically enters into partnerships with distinguished universities, research institutes, and organizations abroad, achieving significant distinctions and high-level research activity.

The University of Patras designs and implements ongoing actions aimed at achieving high-quality, pioneering, and innovative research, promoting excellence in all scientific fields, and creating a favorable and modern research environment for all members of the academic community.

With the strategic goal of creating a strong scientific, economic, and social impact, the University is constantly expanding the scope of its activities by strengthening opportunities for research and innovation (e.g., new financing tools, internationalisation, synergies with the private sector), while at the same time creating coherent links with industry, society and policy makers.

The main lever for implementing the strategy for promoting and developing research excellence is the Finance and Administrative Support Unit of Special Account Research Funds.

Strategic planning

The University of Patras' strategic plan for 2024-2027 aims at reinforcing its potential as a leading educational and research institution emphasising excellence, innovation, and social responsibility. Guiding its continuous development, it evolves around eight strategic pillars:

1. Education
2. Research
3. Connection with Society
4. Internationalization
5. Quality Assurance
6. Digital Transformation
7. Sustainability
8. Equal Access

University Publications

UPatras Publications is starting a new charter! The University aims to create a publishing house that will meet everyone's expectations. The new project is based on the following principles:

- ensuring publishing and aesthetic perfection of books;
- applying strict academic criteria for the evaluation of submitted proposals;
- putting emphasis on the publication of University textbooks; and
- providing extremely favorable financial conditions to authors.

UPatras Publications has been included in Eudoxus.gr information system and cooperates with a network of 21 distribution points, with the purpose of supplying the largest universities in Greece and ensure an effective geographical coverage of the territory.

The University Publications website also functions as an online store.

<https://publications.upatras.gr>

Sustainable University and Volunteering

Raising awareness among University community members, environmental upgrading and running coordinated voluntary activities are some of the integrated actions undertaken by our University towards sustainable development. These actions aim to:

1. Promote and coordinate coherent actions under the umbrella of "Sustainable/Green" University;
2. Implement nature-based smart solutions;
3. Build infrastructures to improve the quality of everyday life of University students and employees, and undertake complementary actions and synergies for projects and actions that are already being implemented;
4. Enhance ecosystem benefits for University students and employees; and
5. Upgrade our Rio Campus, University of Patras environment :
 - Patras Campus Center
 - creation of four theme parks
 - trail network
 - bikeway network: <http://green.upatras.gr>

Volunteering: Student clubs and societies

<https://www.upatras.gr/en/students/student-clubs-and-societies/>

UPatras volunteer group of students was created with the aim of highlighting volunteering as a way of life, expression and mentality. The group operates in line with the following values: contribution to society (blood donations, providing assistance in emergencies, etc.), protection of the environment (tree planting, protection of flora and fauna, etc.), and professional ethics of future scientists, men and women, in society.

<https://green.upatras.gr/ethexis-2/>

Alumni network

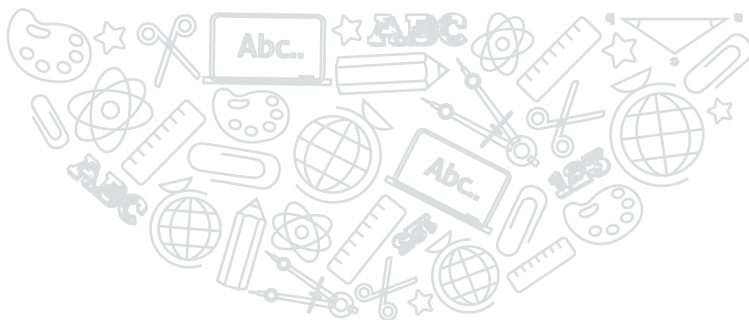

The University's alumni form an integral part of the Institution's history. They are its ambassadors in society and Greece's and international scientific scene. All bachelor's, master's and PhD alumni are welcome to register with the University's Alumni website.

<https://alumni.upatras.gr/en/>

- 1 Contact with former co-students
- 2 Alumni stories and distinctions
- 3 Information on postgraduate programs, scholarships, seminars, etc.
- 4 Access to the Library & Information Center
- 5 Open courses through the Open eClass platform
- 6 Career and job opportunities
